

Application For Financial Assistance

Please note that selection for financial assistance is based on financial need, and that funds available for bursaries are limited. A notice to the profession posted in 1989 describes its purpose as “providing financial assistance to students enrolled in the Bar Admission course who demonstrate emergency financial needs that cannot be met through other source [sic] and who could not otherwise continue in the course without such support.” It is the applicant’s responsibility to provide sufficient and accurate information to demonstrate his or her need for assistance. Incomplete applications will not be considered. All decisions on applications will be made by the student financial assistance committee and are final.
